1200 W mini portable desk heater for office, home (white)

More

Advanced ceramic heating elements provide faster and more efficient heating than traditional heaters. Use this portable heater to heat just the space you need, not the whole house.

Portable heaters for low-energy homes use an advanced ceramic heating element, a PTC heating sheet and an aluminium sheet that can heat up quickly in 2S. It quickly turns cold air into hot wind and helps keep rooms warm even on colder days.

The room heater is UKCA listed and has V-0 non-combustible material, overheat protection and a tip-over safety switch, ensuring zero fire risk. More protection, more safety, perfect for homes with children and pets.

This electric home heater with handle design is very easy to carry and portable and can be placed wherever you need it. This makes it ideal for use in homes, bedrooms, garages, schools and offices.

Even in the cold winter, low-energy home heaters can give you plenty of comfort and warmth.

Power: 1200W;

Heating element: PTC;
Heating area: <20 m²;
Voltage (V): 220V;
Application: 11-20 m²;
Function: adjustable thermostat, overheating protection, fall protection function, 2 adjustable heat fluxes
Installation: desktop, portable.
