

**36-mode electric body massager with therapy**

Generuota 2026-06-04

**Name**

**Description**

**More**

1. Multifunctional Tensio massager with 36 pre-programmed massage modes for pain and muscle relief. The TENS unit helps relieve pain associated with shoulder, lumbar, back, neck, upper limbs (arms) and lower limbs (legs) muscular pain caused by physical exertion or normal household activities. The electric massager is also designed to be used to stimulate healthy muscles to improve and facilitate muscle work.

2. A non-invasive, drug-free option for pain relief. A great device you can use at home for pain relief. If you want to relieve pain, just try the Belifu TENS massager. It is equipped with human body simulation technology, microcomputer smart control technology, and simulates various massage techniques. It helps relieve pain associated with shoulder, lumbar, back, neck, upper limbs (arms) and lower limbs (legs) muscle pain caused by physical exertion or housework.

3. A/B dual-channel tennis machine with 36 modes, 20 intensity levels and time control. Relax anytime, anywhere with pocket size! You can control it with different intensity settings for each channel. Its portable size makes it suitable for use in the office, in the car or on the go. Total body relaxation: use it to relax your back, knees, shoulders, ankles, wrists and elbows and turn this device into the most powerful weapon for relaxing your body.

4. Built-in powerful rechargeable lithium battery - up to 20 hours of continuous use. It can be plugged into a wall charger, power bank or USB port on a laptop to charge. No more worrying about interrupting treatment due to dead AA batteries. The battery level indicator will remind you in time to recharge.
