Apple headphones can also be charged.</p> <p>This magnetic wireless charger with a modern design features fast charging and is also equipped with high-quality Qi wireless charging.</p> |
| More information | <p>The Magnetic Wireless Charger features a minimalist and modern design. The magnet is made of high quality material, making it scratch and shock resistant and the carefully thought-out design will not overstretch the product.</p> <p>The USB cable makes it ideal for travelling as well, as it allows you to charge your phone wherever there are charging stations with USB ports. Using your phone while charging is much more convenient than using a regular charger, as the magnetic charger on the back of the phone makes it very comfortable to hold in your hands, play games, watch movies, listen to music, etc. This charger fits in the palm of your hand, making it very convenient to carry anywhere.</p> <p>Very easy to use: as soon as your phone is placed against the charger, it starts charging immediately. It sticks firmly and stably to the back of your phone, giving your smart device a certain amount of security.</p> |
