

**Green Cell Power Inverter UPS 12V to 230V Pure sine wave 300W/600W for furnances and central heating pumps**

Generuota 2026-06-15

| Name                            | Description                            |
|---------------------------------|--|
| The shape of the output voltage | A full sine wave                       |
| Including                       | 2x fuse, cables for battery connection |
| Indicator                       | LED indicators                         |
| Gamintojas                      | Greencell                              |
| Surge protection                | Yes                                    |
| <b>COLOUR</b>                   |  |
| Protection against overheating  | Yes                                    |
| <b>Other</b>                    |  |
| Warranty                        | 24 months                              |
| Output voltage                  | 230V alternating current               |
| Output frequency                | 50 Hz                                  |
| Power Used (Constant)           | 300W                                   |
