More

Easy Life: Steaming, and boiling can be completed! The steam tray design allows you to use it as an electric lunch box, which saves you time and makes life easier! Car Cooker: The integrated tank, PTC heating mode, and micro-pressure cooking design make the evenly heated rice fully release nutrition. The 1L capacity and short cooking time (about 40 minutes) provide enough delicious food quickly. Long-term Heat Preservation: The heat preservation function and the design of the sealing clip enable it to keep the food warm for a long time (1-2h). Use with Confidence: This mini rice cooker automatically stops heating and turns to insulation gear in case of water shortage to protect your safe use. Convenient Operation: The one-button cooking/heat preservation switch and the complete accessories make it easy for you to get delicious food even if you are a novice cook! Effortless Cleaning: The detachable pot cover and the non-stick pot make it easy to clean. Cute Appearance: The combination of cat pattern and versatile white makes it a beautiful sight in your car. Ideal Gift: This product has good performance and an exquisite appearance. It can be given as a gift to family or friends who are busy with work! Premium Material: The ABS shell and nano-scale non-stick liner are non-toxic and harmless and can serve you for a long time. Easy to Carry: Compact design and handle make it more convenient to carry, and can become the first choice for camping, traveling, company white-collar, students, fast-paced, and single people.
