

## Green Cell Power Inverter 24V to 230V 150W/300W Modified sine wave UK PLUG

Generuota 2024-05-17

| Name                            | Description              |
|---------------------------------|--------------------------|
| Warranty                        | 24 months                |
| Power Used (Constant)           | 150W                     |
| Output frequency                | 50 Hz                    |
| Possibility of return           | Up to 30 days            |
| Item code                       | INV28UK                  |
| The shape of the output voltage | Modified sine wave       |
| Output voltage                  | 230V alternating current |
| Ivesties įtampa                 | 24V DC                   |
| Gamintojas                      | Green cell               |
| Instantaneous power (impulse)   | 300W                     |
